NOTICE

The provisions and information set forth in this catalog are intended to be informational and not contractual in nature, thus, this catalog is not intended, and shall not be construed, to constitute a contract between the Kilgore Junior College District (Kilgore College) and any student, prospective student, agency of the local, state, or federal government, or any other person or legal entity of any and every nature whatsoever. Kilgore College hereby reserves and retains the right to amend, alter, change, delete, or modify any of the provisions of this catalog at any time, and from time to time, without notice, in any manner that the administration or Board of Trustees of Kilgore College deems to be in the best interest of Kilgore College.

STATEMENT OF NONDISCRIMINATION

Kilgore College seeks to provide equal educational and employment opportunities without regard to race, color, religion, national origin, sex, age, disability, marital status, or veteran status.

Kilgore College is an affirmative action/equal opportunity employer.

GUARANTEE FOR JOB COMPETENCY

If a graduate, who has earned an Associate of Applied Science (AAS) degree or program certificate of at least 360 contact hours at Kilgore College, is judged by his or her employer to be lacking in technical skills identified as exit competencies for his or her specific program, the graduate will be provided up to nine tuition-free hours of additional skill training by the College under the conditions of the Guarantee Policy.

1. The graduate must have earned the AAS degree or program certificate of at least 360 contact hours beginning May of 1992 or thereafter in an occupational program identified in the Kilgore College catalog.
2. The graduate must have completed the degree or certificate program at Kilgore College (with a majority of the credits or hours being earned at the College) and must have completed it within a time span no greater than twice the amount of time suggested in the Kilgore College catalog (i.e., four years for most AAS programs).
3. Graduates must be employed full-time in an area directly related to the area of program concentration as certified by the Division Dean over that program.
4. Employment must begin within 12 months of graduation.
5. The employer must certify in writing that the employee is lacking entry-level skills identified by the College as the employee's program competencies and must specify the areas of deficiency within 90 days of the graduate's initial employment.
6. The employer, graduate, dean, program coordinator and appropriate faculty member will develop a written educational plan for retraining.
7. Retraining will be limited to nine credit hours (144 contact hours) related to the identified skill deficiency and to those classes regularly scheduled during the period covered by the retraining plan.
8. All retraining must be completed within a calendar year from the time the educational plan is agreed upon.
9. The graduate and/or employer is responsible for the cost of books, insurance, uniforms, fees, and other course-related expenses.
10. The guarantee does not imply that the graduate will pass any licensing or qualifying examination for a particular career.
11. The student's sole remedy against the College and its employees for skill deficiencies shall be limited to nine credit hours of tuition-free education under conditions described above.
12. The program can be initiated through a written contract with the office of the appropriate Division Dean and approved by the Vice President of Instruction.
