

**KILGORE COLLEGE
BIOLOGY AND HEALTH SCIENCES DIVISION
SCIENCE COURSE DATA SHEETS PACKET**

PLEASE READ CAREFULLY

April 5, 2010 at 4:30 p.m. is the deadline to submit the packet

A modified plan for science course registration will continue for students needing science courses in the Summer and Fall 2010. This modified plan requires students to submit a science data sheet packet. **It is the responsibility of each student to submit the data sheet packet to his or her prospective program director.** The data sheet packets are course request forms with vital student information. Students are asked not to submit a data sheet packet to more than one prospective program director.

Students currently enrolled in Chemistry 1406, 1411, Biology 2404, 2401, 2402 and 2421 day and night classes should ask their instructor to record the current numerical grade average, absences and tardies. Both the instructor and student will sign the form. All completed science courses require documentation by the student. Therefore, the student should attach a transcript from campus connect, (www.kilgore.edu) to verify the completed grades. After the form has been completed, it should be submitted to the prospective program director.

A student not enrolled in a science course in the Spring 2010 should submit the science course data sheet packet to his or her prospective program director. All completed science courses require documentation by the student. Therefore, the student should attach a transcript or a degree audit from campus connect (www.kilgore.edu) to verify the completed grades.

Data sheet packets are objectively placed in ranking priority order by each program director. Students who are close to the completion of graduation requirements generally have first priority. The next level of ranking usually involves current grade averages and completed grades from prerequisite courses. Prospective program directors will register their students in ranking order on **April 8, 2010 at 4:00 p.m.** After 6:00 p.m., registration will be completed and students must check their schedule through the Campus Connect website at www.kilgore.edu. **It is the responsibility of each student to check their registration status.** For the student who did not receive a science class; they should contact their prospective program director to be placed on a waiting list. Kilgore College does not keep an official waiting list. After this priority science registration for health sciences, registration is on a first-come first serve basis. Students who do not complete their prerequisite course with at least a "C" will be dropped from their science course.

YOUR REQUEST WILL BE REJECTED OR DELAYED , IF YOU ARE MISSING ANY PART OF THIS PACKET (3 PAGES) OR IF YOU HAVE A HOLD OF ANY KIND OR IF YOU DO NOT MEET THE PREREQUISITES.

**ALL HOLDS MUST BE CLEARED PRIOR TO APRIL 8 AT 4:00 P.M..
IT IS THE STUDENT'S RESPOSIBILITY TO CHECK AND RESOLVE ANY
REGISTRATION HOLD.**

**A COMPLETED PACKET MUST BE STAPLED TOGETHER IN THE UPPER LEFT
HAND CORNER TO BE ACCEPTED.** (This means NO paper clips, dog eared pages, or loose pages; all the parts must be submitted at the same time.)

Save this page for your records.
