

ALL SEASONS

WINDOW & DOOR MFG., INC.™

All Seasons Window & Door Mfg., Inc, Longview, TX has an immediate opening for a full-time Computer Programmer working out of our Longview office located at 400 Ambassador Row, Longview, TX. The Programmer will be working with our Customer Service Manager and Purchasing Agent who are heading up a special project. The position will be an ideal position for a college student seeking to work full-time in the summer then part-time during fall and spring college semesters.

The candidate must have: A working knowledge of Visual Basics, C++ programming language and Template-Based windows App software. General Code writing may be necessary. Must have excellent Excel skills. Advanced mathematics a plus. Will be converting a complex Visual Basic (written in C++) quote to invoice (includes Mfg. and shipping) software to Template-Based Windows software. Project support personnel will supply all formulas, sizing, costing and formatting. Support will assist in conversion when time allows but the Programmer will be responsible for most of the conversion.

The individual must be able to work full-time beginning immediately during the summer M-F, 8-5; some Saturdays will be required; position go to part-time during fall depending on candidate availability; will work well for an individual attending college who can work evenings or intermittent schedule during the day. The position may require a minimum amount of travel to our location in Bryan, Tx.

Pay rate will depend on experience and background (in the \$15 – \$18/hr range. We would like the programmer to have at least 2 years' experience in programming; would like someone who is at an Associate Degree level if available.

Candidates may apply in person or may submit resume to sylviah@aswmfg.com.
