

Entry-Level Corrosion Technicians

Take your classroom knowledge into the field to gain hands-on understanding and experience. We are looking for a few corrosion technicians to join our survey crew. This is an entry level position, so little to no experience is required if you have your degree.

You will have the opportunity to:

- Assist with CIS, DOC, and Coating Inspections
- Assist with other inspections including Line of Site Verification, Soils Resistivity Testing, and Water Crossing Survey, if requested by the client
- Learn to recognize and troubleshoot CP abnormalities
- Observe real-time quality control and initial field data analysis
- Assist with photographic documentation of field findings
- Gain valuable OJT and mentoring that can help obtain operator qualifications

Experience Requirements:

- Certificate or AS in Corrosion Technology **OR**
- 2 years' experience assisting with or performing Close Interval Survey

Skills and Qualifications:

- Must have a "can-do", goal driven attitude. We are looking for team members who are self-motivated and have strong initiative
- Work flexibly as a team member with a willingness to plug-in where needed to meet daily goals and project requirements
- Travel and work in the field for extended periods of time
- Strenuous activity such as hiking, standing, and walking up to 5-10 Miles per day in rough terrain and extreme weather conditions should be expected
- Pass a thorough background screening and drug test
- Possess a valid Driver's License
- Be a legal US Resident
- Have working level knowledge of Microsoft Office suite
- Have effective oral, written and interpersonal communication skills

The company provides valuable training and mentoring, competitive pay and overtime, accommodations and transportation, meals per diem, and benefits after 90 days.

Company Description: Coast to Coast Inspection Services, Inc. began in 2005, and is part of the Oil and Gas Services/Equipment industry, providing direct examinations as part of our customer's integrity management programs, which assist in the prevention of pipeline incidents, leaks, and failures. We have a diverse mix of customers including owners and operators of interstate, intrastate, and regional oil and natural gas pipelines, refineries, terminals and storage facilities.

Application Instructions: Please send your resume and cover letter to: careers@coastnde.com and include "Kilgore Graduate" in the subject line.
