DUAL CREDIT POLICY

Policies are current as of the date of this revision. All policies are subject to change without notice to meet mandates of the Texas Higher Education Coordinating Board, Texas Education Agency, or the Texas Leg.

1. To be eligible for enrollment in dual credit, students usually will have completed their sophomore year in high school by the time the course begins. ***Exception:*** Students who demonstrate college readiness on state approved tests may be approved by the high school and the Dual Credit Coordinator to enroll in college courses prior to completion of the sophomore year.
2. High school students are generally limited to two courses per semester. ***Exception:*** Students who have met the required minimum scores in reading, writing, and math may enroll in three or more dual credit courses during the fall or spring semesters. Students wishing to take more than two courses who have not met required minimum scores in all three areas require permission from the Dual Credit Coordinator. In a standard summer term, a student may enroll in a maximum of two courses. Students may enroll in only one mini-term course at a time.
3. Students enrolling in more than two dual credit courses in a semester must pass all courses during that semester with a grade of C or better to continue to enroll in more than two courses in the following semesters, per State of Texas regulations.
4. A student must meet all of the college's regular course prerequisites and demonstrate college readiness by achieving the minimum passing standards under the provisions of the Texas Success Initiative (TSI).
5. A student may neither enroll in a college level course in which he/she requires remediation nor take developmental classes at Kilgore College.
6. While taking courses through Kilgore College, the student must adhere to all college policies and regulations contained in the dual credit handbook, college catalog, student handbook, registration guide, and course syllabus.
7. A final high school transcript must be provided after graduation, even if not attending KC after graduation.
8. General academic courses offered through the dual credit program are courses that are commonly required for either an associate's or bachelor's degree. Acceptance of credit by another institution, however, is left to the discretion of the receiving institution. Public universities in Texas are not required to accept more than 66 hours of transfer coursework from a community college, and some private universities do not accept dual credit courses.

Dual Credit eligibility requirements for academic courses and workforce education courses not included in a level 1 certificate program (corrosion technology and process technology):

Contact the Kilgore College Testing Center at (903) 983-8215 or the Kilgore College-Longview Testing Center at (903) 236-2051 (TSI Assessment only).

Eligibility requirements for workforce education courses in Level 1 Certificate programs: (excludes Corrosion Technology and Process Technology)

- It is ***STRONGLY RECOMMENDED*** that students have passed the English II STAAR EOC in order to be successful in workforce education courses.
- Additional aptitude testing may be required for some programs to ensure that students have the skills necessary to be successful in the program.

Bacterial Meningitis Vaccination. As of October 1, 2013, Texas state law requires that college students under 22 years of age must provide proof of receiving an initial bacterial meningitis vaccination dose or booster within the last 5 years. ***Dual credit students who are not taking classes on a Kilgore College campus are exempt from this requirement.*** Therefore, if students are enrolling only in classes taught on their high school campus or through distance education (online, interactive television), they are not required to show proof of vaccination. ***However, dual credit students seeking to enroll in a course taught on a Kilgore College campus must provide proof of vaccination prior to registration.*** Exemptions from the vaccine are available in cases in which a physician has determined that receiving the vaccination is not in the best interest of the student, or through completion of the conscientious objection form from the Department of State Health Services. Visit www.kilgore.edu/meningitis.asp for more information and to obtain the DSHS conscientious objection form.
