

OFFICE OF CAMPUS LIFE

RESIDENTIAL LIFE

**HANDBOOK
2020**

Welcome to Campus Life!

Let me be the first to thank you for choosing to live on campus this year at Kilgore College. As I sit down to write this letter, my heart is filled with hope for your future. You have already witnessed so much just in the year 2020 with the COVID-19 pandemic, nationwide rioting and violence.

As Kilgore College President Brenda Kays said, "These violent incidents that capture our national attention are not okay. Neither are the instances of racial bias you face every day because of your skin color."

It is events such as these that shape a generation.

And here you are, starting your future at Kilgore College. I do not know each of your stories yet, but I look forward to knowing all of your stories and getting to know each one of you. Please know that I am here to support you. I am here with each of you to help you to grow and succeed at the next level – whatever that might be.

Whether you plan to enter the workforce after KC or transfer to a four-year school, whatever you can imagine BEGINS NOW.

My goal is to provide you with a safe and affirming educational environment.

#jucoproduct

Sincerely,

Ashley Mason
Coordinator, Office of Campus Life

Ashley Mason

Aramark Dining Services serves many students during the year. One of the objectives is to get to know our student customers and their tastes. Suggestions may be made to the Food Service Director. The Food Service Director prepares the menus which are planned to help ensure daily nutritional requirements. The Food Service Director welcomes student comments at any time.

Before a student may be admitted to a college residence hall, the resident must be 17 years of age – no minors are admitted to the residence hall. In addition, the student must submit a completed Residence Hall Occupant Information Form, which includes the name of a contact person and how they can be contacted in the event the occupant/resident becomes missing from the residence hall. The contact information submitted is confidential and may only be released to the person(s) specifically identified by the resident, to administrative officials of the college who may become involved in a missing persons investigation report involving the resident, and to law enforcement authorities investigating a missing persons report. Bacterial Meningitis is a serious, potentially deadly disease that can progress extremely fast – so take utmost caution. It is an inflammation of the membranes that surround the brain and spinal cord. The bacteria that causes meningitis can also infect the blood. This disease strikes about 3,000 Americans each year, including 100-125 on college campuses, leading to 5-15 deaths among college students every year. There is a treatment, but those who survive may develop severe health problems or disabilities.

WHAT ARE THE SYMPTOMS?

- High fever
- Vomiting
- Confusion and sleepiness
- Seizures
- Severe headache
- Light sensitivity
- Nausea
- Rash or purple patches on skin
- Stiff neck
- Lethargy

There may be a rash of tiny, red-purple spots caused by bleeding under the skin. These can occur anywhere on the body. **The more symptoms, the higher the risk, so when these symptoms appear seek immediate medical attention.**

HOW IS BACTERIAL MENINGITIS DIAGNOSED? Diagnosis is made by a medical provider and is usually based on a combination of clinical symptoms and laboratory results from spinal fluid and blood tests. Early diagnosis and treatment can greatly improve the likelihood of recovery.

HOW IS THE DISEASE TRANSMITTED? Disease is transmitted when people exchange saliva (kissing or by sharing drinks, utensils, cigarettes, toothbrushes, etc.) or come in contact with respiratory/throat secretions.

HOW DO YOU INCREASE YOUR RISK OF GETTING BACTERIAL MENINGITIS?

- Exposure to saliva by sharing cigarettes, water bottles, eating utensils, food, kissing, etc.
- Living in close conditions (such as sharing a room/suite in a dorm or group home)

WHAT ARE THE POSSIBLE CONSEQUENCES OF THE DISEASE?

- Death (in 8 to 24 hours from perfectly well to dead)
- Permanent brain damage
- Kidney failure
- Limb damage (fingers, toes, arms, legs) requiring amputation
- Gangrene
- Coma
- Convulsions
- Hearing loss, blindness
- Learning disability

CAN THE DISEASE BE TREATED? Antibiotic treatment, if received early, can save lives and chances of recovery are increased. However, permanent disability or death can still occur. Vaccinations are available and should be considered for: 1) Those living in close quarters, 2) College students 25 years old or younger. Vaccinations are effective against 4 of the 5 most common bacterial types that cause 70% of the disease in the U.S. (but does not protect against all types of meningitis). Vaccinations take 7-10 days to become effective, with protection lasting 3-5 years. The cost of vaccine varies so check with your health care provider. Vaccination is safe; common side effects are redness and minor pain at injection site for up to two days. Vaccination is available at the Gregg County Health Department.

FIRE AND EMERGENCY EVACUATION PROCEDURES

PROCEDURES FOR RESIDENCE HALL:

POLICY STATEMENT:

Failing to comply with established fire regulations may endanger the safety of all residents. Therefore, it is the policy of Kilgore College to require residents to strictly observe fire prevention and emergency evacuation procedures.

The following emergency evacuation procedures apply to all residents and guests and must be followed should smoke and/or fire be detected or the fire alarm be activated.

Primary Escape Route – Emergency exit doors at the end of each hallway. Take stairs to lobby.

Designated Meeting Place – Stark Hall and Quads meet at Tennis Court parking lot. Nolen Hall meet at the Lee Mall/Mike Miller Plaza

PRIOR TO EVACUATING THE DORMITORY ROOM:

Place the back of your hand against the door, the knob, or the crack between the door and the door frame on the side with the hinges. If it is hot, stuff a towel or other cloth material at the base of the door to prevent smoke from entering the room. Crawl to the window for escape or to signal for help.

NOTE: If you are two more stories above the ground, and are in imminent danger of losing your life with no foreseeable route of escape, jump only as a last resort. If the door is cool, brace yourself against it, turn your face away and open it carefully. If heat and smoke come in, slam the door, making sure it is latched and proceed as above. If no fire, heat or smoke is detected upon checking the door, prepare to evacuate through the nearest unobstructed primary or secondary escape route.

EVACUATION PROCEDURES:

Evacuate the building immediately. If possible shut the windows and close the dorm room door upon leaving. All residents will leave the building by either the primary or secondary escape routes. Should a resident not be in the assigned wing when it is time to evacuate, he/she must evacuate with the wing that they are in at the time, and not return to their assigned room or area. Upon evacuating, if smoke is encountered, crawl low (12 to 24 inches off the floor) to the nearest unobstructed exit.

If the general building fire alarm has not been activated at the time of evacuation, activate an alarm by pulling the nearest alarm pull station on your way out of the residence hall. The first person out of the primary or secondary escape route should prop the door open for ease of evacuation. Once all residents have evacuated, the emergency exit door should be closed, if safely possible.

FIRE AND EMERGENCY EVACUATION PROCEDURES

NEVER RE-ENTER A BURNING BUILDING or allow anyone else to do so. Once out, stay out and do not reenter the building until the scene is safe and you are authorized to do so by an on scene public safety official.

After evacuation, all dormitory residents are required to meet with the Residence Hall Supervisor or other college official at the designated meeting place for their residence hall. Residents are further required to remain at the designated meeting place until released by an authorized college official.

DURING EVACUATION:

Do not waste time getting dressed or gathering valuables. You have no time to spare. No possession is worth your life.

If your clothes catch fire, stop, drop and roll. **DO NOT RUN!** Cover your face and mouth with your hands for protection from the flames and roll over and over to smother the flames.

If you view someone else's clothes on fire, tackle or knock the person down and help the person to roll on the ground. If available, throw a blanket or rug over the victim to smother the fire.

USE YOUR SENSES! If you smell smoke, feel excessive heat, see an actual fire or hear a fire alarm, **STAY CALM** and **THINK!** Then take quick, deliberate, but cautious action.

FIRE DRILLS:

The Residence Hall Supervisor will schedule a minimum of one fire drill per semester to ensure all residents are acquainted with fire evacuation procedures. All residents are required to participate, and may not receive any advance notice of a scheduled fire drill. Failure to evacuate during any fire alarm (drill or otherwise) will result in citations.

COLLEGE RULES AND REGULATIONS:

The failure of any resident to strictly follow the above procedures may result in a student disciplinary action being brought against the resident, which may include a range of penalties up to and including expulsion from the college.

FIRE-RELATED LAW:

According to Texas Penal Code 42.06, it is a Class A misdemeanor to initiate a false fire alarm. Class A misdemeanors are punishable by a fine not to exceed \$4,000, confinement in jail for a term not to exceed one year, or both such fine and imprisonment. It is also a violation to tamper with fire safety equipment such as fire extinguishers.
