CSP 2020-A001

The Lane Johnson Athletic Performance Center Remodel

CSP ADDENDUM NO. 6 – Design Addition & Advisory Notes

To All Potential Bidders:

This addendum is issued to modify the previously issued bid document and/or given for informational purposes, and is hereby made a part of the bid documents. Please attach this addendum to the documents in your possession. The original CSP Documents remain in full force and effect, except as modified by this Addendum, which is hereby made part of the CSP. Respondents shall take this Addendum into consideration when preparing and submitting its Proposal.

- Added design for the installation of a new handicap accessible drinking fountain. Attachment A of this document.

- Advisory Notes to design submitted by Johnson & Pace Inc.
  1. Door ‘FA3’ appears to missing a tag on sheet G0.2, this door is located on the West wall of the existing swimming pool room.

  2. FIRE DETECTION & ALARM SYSTEM
  Modify existing fire alarm detection system to serve rooms and configuration of spaces resulting from this renovation project. Modifications and modified system shall comply with applicable requirements of NFPA 72, IBC 907, 2012 International Existing Building Code, and the Authority Having Jurisdiction (AHJ) which is the City of Kilgore, Texas. Design of system modifications and modified system shall comply with applicable requirements of NFPA, IBC, and the AHJ. Provide all design documentation required by Codes and acceptable to the City to AHJ for approval prior to system modifications. Testing of system modifications and modified system shall comply with applicable requirements of NFPA 72, IBC 907, and the AHJ. Re-use existing system components and appliances to the maximum extent feasible and allowable. Where new components and appliances are necessary for the modified system to comply with regulatory requirements, provide materials and installation that match existing to the greatest extent feasible and allowable, that are compatible with the existing system, and approved by the system manufacturer and AHJ.
