II. ACM HAZARD - ASBESTOS MATERIALS

Building 4

James Parks Fitness Center

No confirmed asbestos-containing materials.
ERI Consulting, Inc.

X. HOMOGENEOUS AREAS / ADDITIONAL SAMPLING

This section contains a list of building materials which were suspected to be asbestos-containing. Where materials have been sampled and analyzed, they are identified as either “asbestos-containing” or “non asbestos-containing.” Materials which have not been sampled must be identified as “assumed asbestos-containing,” until sampling and analysis has been performed. Documentation for sampling which was performed for the purpose of developing this management plan is included in this section.

Building 4

James Parks Fitness Center
