John Colville             Director of Information Technology
INDEPENDENT AUDITOR’S REPORT

The Board of Trustees
Kilgore Junior College District:

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of Kilgore Junior College District (the District) as of and for the year ended August 31, 2021, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements as listed in the table of contents.

Management’s Responsibility for the Financial Statements

The District’s management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the discretely presented component unit, The Kilgore College Foundation (the Foundation), as of and for the years ended August 31, 2021 and 2020. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Foundation, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Foundation were not audited in accordance with Government Auditing Standards.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control.
Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Opinions**

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of Kilgore Junior College District as of August 31, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The financial statements of the District for the year ended August 31, 2020 were audited by another auditor who expressed an unmodified opinion on those statements on February 5, 2021.

**Other Matters**

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis on pages 4 through 10, the schedule of the District’s proportionate share of the net pension liability on page 50, the schedule of the District’s contributions to the Teacher Retirement System of Texas on page 51, the schedule of the District’s proportionate share of the net OPEB liability on page 52, and the schedule of the District’s contributions to the Employee Retirement System of Texas on page 53 (collectively, the required supplementary information) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.
Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District’s basic financial statements. The introductory section and supplemental information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedules of expenditures of federal and state awards are presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the Uniform Grant Management Standards and are also not a required part of the basic financial statements.

The supplemental information and the schedules of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information and schedules of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated July 15, 2022, on our consideration of the District’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District’s internal control over financial reporting and compliance.

July 15, 2022
MANAGEMENT’S DISCUSSION AND ANALYSIS

Our discussion and analysis of Kilgore Junior College District’s (the District) financial performance provides an overview of the District’s financial activities for the fiscal year ended August 31, 2021, with fiscal years 2020 and 2019 data presented for comparative purposes. This discussion has been prepared by management along with the financial statements and related footnote disclosures and should be read in conjunction with the financial statements and footnotes.

Using this Annual Financial Report

This annual financial report consists of a series of financial statements. The Texas Higher Education Coordinating Board requires all Texas public junior and community colleges to use the Annual Financial Reporting Requirements for Texas Public Community Colleges for consistent and uniform reporting. It is intended that each public community and junior college adopt the business-type activities (BTA) model for use in preparing their annual financial reports.

The Statement of Net Position includes all assets and deferred outflow of resources and liabilities and deferred inflow of resources. The focus of the statement is to report the net resources available to finance future operations. It is prepared under the accrual basis of accounting, whereby revenues and assets are recognized when the good or service is provided; and, expenses and liabilities are recognized when others provide the good or service, regardless of when cash is exchanged. The statement is useful to determine the assets available to fund services, as well as identify what the District owes vendors, lenders, and others at the end of the year. The Statement of Net Position presents to the readers of the financial statements a fiscal snapshot of the District.

The Statement of Revenues, Expenses, and Changes in Net Position provides information about the activities of the District as a whole and presents a longer-term view of the District’s finances. The District is dependent on three primary sources of revenues: federal and state funding, tuition and fees, and ad-valorem taxes. Activities are presented as either operating or nonoperating. Under this reporting model, state appropriations, ad-valorem taxes and certain federal revenue are reported as nonoperating revenues. Because of the District’s dependency on the nonoperating revenues, there is a significant operating deficit. The utilization of long-term assets, referred to as Capital Assets, is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life.

The Statement of Cash Flows presents information related to cash inflows and outflows summarized by operating, noncapital financing, capital and related financing, and investing activities.

Financial statements for the District’s component unit, The Kilgore College Foundation (the Foundation), are issued independently of the District. The Foundation’s financial information is shown in separate columns on the District’s basic financial statements. More details on the Foundation are in Note 1 in the Notes to Financial Statements.
**Financial Highlights**

- Total assets and deferred outflows for 2021 were $100.5 million, increasing by $1.6 million from 2020 due primarily to the net effect of a $6.5 million increase in cash and cash equivalents and a $3.2 million decrease in capital assets. Total liabilities and deferred inflows for 2021 were $71.3 million, decreasing by $2.3 million from 2020, primarily the result of a $1.9 million decrease in deferred inflows of resources for pension and OPEB.

- Net position at August 31, 2021 was $29.1 million, an increase of $3.9 million from the prior year, primarily due to the $9.6 million contribution to the Foundation during 2020.

- Total operating revenues in 2021 were $20.2 million, an increase of $1.1 million primarily attributable to a $1.0 million increase in state grants and contracts and $1.0 million increase in auxiliary services offset by a decrease in federal grants and contracts revenue of $1.0 million. Operating expenses were $49.0 million, up $3.9 million from 2020 primarily due to increases in instruction and institutional support from federal grant funding and increases in depreciation due to significant additions to equipment in 2021. Net nonoperating revenues (expense) were $32.7 million, up $11.7 million from 2020 primarily due insurance recoveries on capital assets in 2021 and the $9.6 million contribution to the Foundation in 2020.

- Capital assets (net) decreased by approximately $3.2 million in 2021, and increased by $1.2 million in 2020.

- Notes payable decreased by approximately $1.0 million in 2021 and increased by approximately $4.5 million in 2020.

**Statement of Net Position**

The District’s net position increased $3.9 million compared to a $4.7 million decrease in the prior year, increasing from $25.2 million to $29.1 million.

</tbody>
</table>

The Statement of Net Position helps identify the District’s ability to meet future obligations. One of the analytical tools used to determine this is comparing the current assets to current liabilities, or the current ratio. Current assets are those assets which can be converted quickly to pay current obligations, while current liabilities are those obligations which are expected to be satisfied within one business cycle. The District’s current assets of $30.2 million were sufficient to cover current liabilities of $8.8 million, giving a current ratio of 3.4 compared to 2.8 for fiscal year 2020.

Another analytical tool used to evaluate the financial stability of an entity is to compare expendable net position to operating expenses. The District reported a deficit expendable net position of $(23.6) million at August 31, 2021 compared to a deficit expendable net position of $(29.9) million at August 31, 2020. Operating expenses for the same periods were $49.0 million and $45.1 million. The District continued to report a deficit in expendable net position at August 31, 2021 as a result of the implementation of GASB 75 in fiscal year 2018. The ratio of expendable net position to operating expenses for fiscal years 2021 and 2020 was (48.1%) and (66.3%), respectively, of operating expenses.

The District’s accumulated cash and cash equivalent balances increased from $21.5 million in 2020 to $28.1 million in the current year. This increase is due to a number of factors including the receipt of insurance proceeds and general district operations for the year.

Statement of Revenues, Expenses and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position presents the operating results, as well as non-operating revenues and expenses. Of the four main sources of revenue — ad valorem taxes, state appropriations, federal revenue, and tuition and fees — only tuition and fees represents an exchange for services. Taxes, federal revenues, and state appropriations represent non-exchange transactions and thus are considered non-operating revenues. This approach to presenting revenues and expenses is intended to summarize and simplify the user’s analysis of the various services offered to students and the public. Depending on whether revenues or expenses are greater for the year, a net increase or net decrease in net position is created.

| Increase (decrease) in net position                      | $ 3,904,241   | (4,988,945)   | (714,214)     |
Operating and Non-operating Revenues

Tuition and fees revenue is reported net of scholarships and discounts. In Fall 2020 the District increased the base tuition per credit hour for in-district, out-of-district, and non-resident students, as well as increased the general education fees. As a result, the associated tuition and fee revenue in 2021 increased approximately $0.1 million. The total enrollment decreased from the fall of 2019 attributed to the COVID 19 pandemic.

Federal grants and contracts revenue decreased $2.2 million, primarily due to continued decreases in the Pell Grant program and student distributions and recognition of allowable institutional uses under Higher Education Emergency Relief Fund assistance for COVID-19 related items.

State grants and contracts revenue increased $0.5 million primarily due to greater participation in the Texas Educational Opportunity Grant program and one-time grant from Texas Workforce Commission for a skills development grant.

Auxiliary enterprises revenue increased $0.9 million in 2021 rebounding from the closures of housing for the COVID-19 pandemic. As the State of Texas reopened, the District resumed operations of other auxiliary enterprises and resumed summer camps at the District.

State appropriations change is the result of a reduction in biennium state funding from the 86th Legislative session.

Ad valorem tax revenue, net of collection fees and bad debt, decreased in 2021 by $0.1 million as the taxable assessed value was slightly lower for 2020 and the rate for maintenance and operations (M&O) was maintained at $0.175 per $100 valuation. The maintaining of the tax rate was intentionally kept the same to minimize impact on taxpayers during the COVID-19 pandemic.

The District received insurance proceeds to replace the pedestrian bridge that was damaged in 2019. The bridge had to be removed and the insurance proceeds will be used to construct a new pedestrian bridge on the campus.

Operating and Non-operating Expenses

Operating expenses totaled $49.0 million, which is a $3.9 million increase from fiscal year 2020. The increase is primarily due to a $1.9 million dollar increase in instruction and institutional costs and a $1.9 million increase in depreciation expense, associated with a significant amount of new equipment coming online.

Non-operating expenses totaled $0.7 million, which is a $9.0 million decrease from fiscal year 2020. The decrease is primarily due to the one-time $9.6 million contribution to The Kilgore College Foundation for student scholarships in 2020.
Statement of Cash Flows

The Statement of Cash Flows combines information from the Statements of Net Position and the Statements of Revenues, Expenses, and Changes in Net Position to illustrate the effect of various actions of the District on the availability and ultimate change in the amount of cash from one year to the next. The cash provided or used by operations, capital and non-capital financing, and investing activities combine to show the net change in cash and cash equivalents. The final portion of the Statements of Cash Flows reconciles the net income or loss from operations to the cash provided or used by operations.

Capital Assets and Debt Administration

The District has a capital asset policy that requires assets whose original purchase price was over $5,000 to be recorded as a capital asset. At the end of fiscal year 2021, the District had $62.5 million invested in a broad range of capital assets, as noted in the below table. Significant additions in fiscal year 2021 includes recognizing $18.0 million of equipment related to utility improvements throughout the campus from construction in progress. There was also a reduction in equipment that was replaced and the recording of the loss for the bridge that lowered the total assets by $3.0 million. More information on capital assets can be found in Note 6 to the financial statements.

Economic Factors and Next Year’s Budgets and Rates

The District is not aware of any currently known facts, decisions, or conditions that are expected to have a significant effect on the financial position or results of operations during the forthcoming fiscal year beyond those unknown variations having a global effect on virtually all types of businesses.

The District’s elected and appointed officials considered many factors when setting the fiscal year 2022 budget, tax rates, and fees that are charged for its business-type activities. One of those factors continues to be the economy. The District’s employment levels have mirrored its population levels over the past ten years averaging minimal gains.

Enrollment was negatively impacted due to the COVID-19 global pandemic and rebounded slightly with the 2021-2022 academic year. The District has distributed most of the Higher Education Emergency Relief Fund (HEERF) awards to students in need during the pandemic crisis. The HEERF award to the institution has assisted in implementing remote learning, updating technology, and improving safety of the students.

The District saw a slight decrease in property values based on 2021 values for fiscal year 2022. This decrease is attributed to the closing of Haliburton and the impacts of COVID-19 in the region. Subsequently, the East Texas region has seen significant activity in the real estate market during the calendar year 2021 and preliminary property values for future years looks to increase significantly.

Community colleges are known as the great equalizers. This persona is based on the demographics of the students who typically enroll. General characteristics of community college enrollees encompass: minorities, economically and academically disadvantaged individuals, single parent households, and workers in the service industry. While the District is proud of the population that it serves and the fact that it offers them an opportunity to break the cycle of poverty, it can’t escape the reader that these very same populations were hardest hit by the pandemic. In planning the fiscal year 2022 budget, the District did not overlook this fact and budgeted its tuition and fee revenue accordingly.

Tuition and fee rates were increased for academic year 2020-2021 by 4.5% for in-district and 2.4% for out-of-district students. The District did not adopt any increases in tuition and fees for academic year 2021-2022. State and federal grants will continue to fluctuate from year to year. As a significant boost to the District’s financial outlook, the District continues to see significant fundraising successes from its Institutional Advancement and joint efforts with the Foundation. There is every indication this success will continue to benefit the District’s students through increased scholarships and the assistance with funding the District’s infrastructure needs. In addition, the District continues to look for partnership opportunities with area governments, school districts, and industries to enhance higher education in the region.

The District has initiatives to change organizational culture to an entrepreneurial mindset, improve community outreach, and enhanced remote learning opportunities. The District has continued to improve its ability to deliver quality face to face, and remote learning to its service area. Management believes the District has a solid and stable financial position and is well equipped to handle the increasing demands for a better educated workforce.

### Noncash capital, financing and investing activities:

- State appropriations on-behalf payments $3,220,153
- Other adjustments $(1,015,646)

See accompanying notes to the financial statements.
Kilgore Junior College District

Notes to Financial Statements

August 31, 2021 and 2020

(1) Nature of Operations and Reporting Entity

Kilgore Junior College District (the District) was established in 1935, in accordance with the laws of the State of Texas, to serve the education needs of the District and the surrounding communities. The District is a comprehensive, public, two-year institution offering academic, general, occupational, developmental, and continuing adult education programs through a network of campuses in East Texas. The District is governed by a nine-member Board of Trustees which has governance responsibilities over all activities related to the District. The District is considered to be a primary government according to the definition in Governmental Accounting Standards Board (GASB) Statement No. 61, The Financial Reporting Entity Omnibus: An Amendment of GASB Statements No. 14 and No. 34. While the District receives funding from local, state, and federal sources and must comply with the spending, reporting, and record-keeping requirements of these entities, it is not a component unit of any other governmental entity. The accompanying financial statements present the District and its component unit described below.

The Kilgore College Foundation (the Foundation) is a legally separate, tax-exempt entity organized to solicit and receive support for education, scientific, and charitable purposes of the District. The Foundation receives a significant portion of its revenue from individuals and businesses in the areas served by the District. The District does not control the timing or amount of receipts from the Foundation. However, the majority of resources or income thereon that the Foundation holds and invests is for the benefit of the District or its constituents. Because the net position of the Foundation compared to the District is significant, because substantially all resources held by the Foundation can only be used by, or for the benefit of, the District, and because the Foundation has historically provided resources to the District or its constituents, the Foundation is considered a component unit of the District and is discretely presented in the District’s financial statements. Complete financial statements for the Foundation can be obtained from the District’s business office.

The District is reported as a special-purpose government engaged in business-type activities. The significant accounting policies followed by the District in preparing these financial statements are in accordance with the Texas Higher Education Coordinating Board’s Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges. These accounting policies basically conform to generally accepted accounting principles applicable to government units.
Kilgore Junior College District

Notes to Financial Statements
(Continued)

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the District have been prepared using the economic resource measurement focus and the accrual basis of accounting, whereby all revenues are recorded when earned and all expenses are recorded when a liability has been incurred. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met. Operating revenues and expenses generally result from providing services in connection with the District’s principal ongoing operations. The District distinguishes operating revenues and expenses from nonoperating items. The primary consideration in classifying revenues and expenses is how individual transactions are categorized for purposes of preparing the statement of cash flows. Transactions for which cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are reported as components of nonoperating income. The principal operating revenue of the District results from providing education services to students and consists of tuition and fees, non-Title IV federal grants as well as sales and services of educational activities and auxiliary goods and services. Operating expenses include the cost of providing educational services, auxiliary goods and services, and administrative expenses. All revenues and expenses not meeting this definition – including gifts, contributions, and grants from nonexchange and exchange-like transactions – are reported as nonoperating revenues and expenses. The principal nonoperating revenues of the District consist of state appropriations, property taxes, and Title IV federal grants. When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted resources as they are needed.

The financial statements of the Foundation have been prepared on the accrual basis of accounting. The Foundation is a nonprofit organization that reports under Financial Accounting Standards Board standards. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundation’s financial information in the District’s financial reporting entity for these differences.
(2) **Summary of Significant Accounting Policies** (continued)

(b) **Encumbrances**

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditures of funds are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year’s budget. Encumbrances outstanding at year-end that were provided for in the subsequent year’s budget are reported as designations of net position since they do not constitute expenditures or liabilities.

(c) **Scholarship Allowances and Discounts**

Student tuition and fee revenues are reported net of scholarship allowances and discounts in the statements of revenues, expenses, and changes in net position. Scholarship allowances and discounts are the difference between the stated charge for goods and services provided by the District and the amount that is paid by students. Certain governmental grants, such as Pell grants and other federal, state or nongovernmental programs, are recorded as nonoperating revenues in the District’s financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees, the District has recorded a scholarship allowance and discount.

*Texas Public Education Grants:* Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition and fee revenue as a separate set aside in accordance with the Texas Education Code. When the award for tuition is used by the student, the amount is recorded as tuition and a corresponding amount is recorded as a tuition discount.

*Title IV Program Funds and Other Tuition Discounts:* Certain Title IV Program funds are received by the District to pass through to the students. In addition, the District awards tuition and fee scholarships from institutional funds to students who qualify. When the student is awarded and uses these funds for tuition and fees, the amounts are recorded as revenue and corresponding amounts are recorded as tuition discounts.
(2) Summary of Significant Accounting Policies (continued)

(d) Cash and Cash Equivalents

Cash equivalents of $176,828 and $176,723 at August 31, 2021 and 2020, respectively, consist of public funds investment pools. Cash equivalents are considered to be highly liquid debt instruments with original maturities of three months or less from the date of acquisition.

Restricted cash and cash equivalents at August 31, 2021 and 2020 are mainly comprised of resources accumulated for debt service payments.

(e) Investments

Investments are reported at fair value. Fair values are based on published market prices. The governmental investment pool operates in accordance with appropriate state laws and regulations. The value of the pool is reported at amortized cost which, in most cases, approximates the fair values of the pool shares.

(f) Inventories

Inventories, consisting of consumable office supplies, physical plant supplies, bookstore stock, and food service supplies, are valued at the lower of cost or market using the first-in, first-out method and are charged to expense as consumed.

(g) Capital Assets

Capital assets, which include land, buildings, land improvements and infrastructure, leasehold improvements, equipment, exhibits, and library books, are defined by the District as assets with an initial, individual cost of more than $5,000 and an estimated useful life of one or more years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. Renovations to buildings and other improvements that significantly increase the value or extend the useful life of such assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of an asset or materially extend asset lives are charged to operating expense in the year in which the expense is incurred. The District reports depreciation under a single line item as a business-type unit.
(2) **Summary of Significant Accounting Policies** (continued)

(g) **Capital Assets** (continued)

Depreciation is computed using the straight-line method over the following estimated useful lives:

- Buildings: 50 years
- Improvements: 20 years
- Library books: 15 years
- Equipment: 5 - 10 years

(h) **Deferred Outflows and Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

Deferred outflows and inflows as of August 31, 2021 and 2020 consist of the following:

<table>

</tbody>
</table>

(j) Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS’s fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(k) Other Post-Employment Benefits (OPEB)

The fiduciary net position of the Employee Retirement System of Texas (ERS) State Retiree Health Plan (SRHP) has been determined using the flow of economic resources measurement focus and the full accrual basis of accounting. This includes for purpose of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, and information about assets, liabilities, and additions to/deductions from SRHP’s fiduciary net position. Benefit payments are recognized when due and payable in accordance with benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.
(2) Summary of Significant Accounting Policies (continued)

(1) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant items subject to such estimates and assumptions include the carrying amount of capital assets, valuation allowances for receivables, certain accrued liabilities, and net pension liability and net OPEB liability and related deferred outflows and inflows of resources. Actual results could differ from those estimates.

(3) Authorized Investments

The District is authorized to invest in obligations and instruments as defined in the Public Funds Investment Act (Sec. 2256.001 Texas Government Code). Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute. The District is also required to follow specific investment practices prescribed by the Public Funds Investment Act (the Act) related to establishment of appropriate investment policies and management reports.

(4) Deposits and Investments

Deposits and investments of the District at August 31, 2021 and 2020 consist of the following:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>

</tbody>
</table>

The weighted average maturity of investments (in days) of the District at August 31, 2021 and 2020 consists of the following:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Texas Local Government Investment Pool</td>
<td>31</td>
<td>27</td>
</tr>
</tbody>
</table>

*Interest Rate Risk.* Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio. Money market mutual funds must have a dollar weighted average stated maturity of 90 days or less. The maximum allowable stated maturity of any other individual investment owned by the District cannot exceed the limits established by the Act. If no maximum allowable stated maturity is provided for a particular investment, the maximum allowable stated maturity for such investment cannot exceed ten years.
Credit Risk. Credit risk is the risk that an investment issuer or other counterparty to an investment will not fulfill obligations related to the investment. It is the District’s policy to limit its investments in a manner that ensures the preservation of capital in the overall portfolio. Specifically, public funds investment pools must be rated not less than AAA or an equivalent rating by at least one nationally recognized rating service. At August 31, 2021 and 2020, the public funds investment pool held by the District was rated AAAm by Standard & Poor’s.

As indicated above, investments of the District at August 31, 2021 and 2020 include deposits in the Texas Local Government Investment Pool (TexPool). TexPool is a public funds investment pool created pursuant to the Interlocal Cooperation Act of the State of Texas. The District has delegated the authority to hold legal title to TexPool as custodian and to make investment purchases with the District’s funds. The District does not own specific, identifiable investment securities within TexPool.

The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The advisory board members review the investment policy and management fee structure. There are no maximum transaction amounts and withdrawals may be made daily. TexPool uses amortized cost rather than fair value to report net assets to compute share prices.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of a government’s investments in the securities of a single issuer. The District’s investment policy includes an investment objective of seeking diversification to avoid unreasonable risk.

Interest Rate and Credit Risks of The Kilgore College Foundation. The Foundation has adopted investment and spending policies to seek reasonable income, preserve capital, and, in general, avoid speculative investments. The policies contain provisions that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates and to limit the risk that an issuer or other counterparty to its funds will not fulfill its obligations.
(5) Disaggregation of Accounts Receivable and Accrued Liabilities

Accounts receivable at August 31, 2021 and 2020 consisted of the following:

<table>

Notes payable are comprised of the following:

**SECO Loans #1 and #2**

The District entered into two note agreements in September 2018 with the State Energy Conservation Office (SECO) to provide upgrades to multiple buildings for HVAC, exterior lighting, solar thermal window film, building weatherization, water conservation, and utility assessment report. The notes are not to exceed $14,442,032. As of August 31, 2021 and 2020, the District has borrowings outstanding of $13,470,884 and $14,381,373, respectively. Debt service requirements for these notes as of August 31, 2021, are as follows:

Kilgore ISD

The District entered into an agreement with Kilgore Independent School District (Kilgore ISD) whereby the District purchased property from Kilgore ISD. The District’s payments each year are the tuition provided by the District for dual or concurrent credit to students of Kilgore ISD. Annual requirements are expected to approximate $50,000.

(8) Employees’ Retirement Plan

Plan Description. The District participates in a cost-sharing, multiple employer defined benefit pension plan that has a special funding situation. The plan is administered by TRS. It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension’s Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported education institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.
(8) Employees’ Retirement Plan (continued)

Pension Plan Fiduciary Net Position. Detailed information about TRS’s fiduciary net position is available in a separately issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://www.trs.texas.gov/Pages/aboutpublications.aspx, by writing to TRS at 1000 Red River Street, Austin, Texas 78701-2698, or by calling (512) 542-6592.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, whose formulas use the three highest annual salaries. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member’s age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member’s age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on the date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes, including automatic cost of living adjustments (COLA). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas legislature as noted in the plan description above.

Texas Government Code Section 821.006 prohibits benefit improvements if, as a result of the particular action, the time required to amortize TRS’ unfunded actuarial liabilities would be increased to a period that exceeds 31 years or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by TRS’ actuary.

In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the State, participating employers and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the Legislature to approve funding for a 13th check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in either the matching amount of their monthly annuity or $2,000, whichever was less.
(8) Employees’ Retirement Plan (continued)

Contributions. Contribution requirements are established or amended pursuant to Article XVI, Sec. 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6.0% of the member’s annual compensation and a state contribution rate of not less than 6.0% and not more than 10.0% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025. Contribution rates were as follows:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Contributors to the plan include members, employers, and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools, and state agencies, including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public schools, junior colleges, other entities, or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member’s salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member’s first 90 days of employment.
- When any part or all of an employee’s salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
(8) Employees’ Retirement Plan (continued)

- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees, and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, when employing a retiree of TRS, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions. The total pension liability in the August 31, 2020 and 2019 actuarial valuations was determined using the following actuarial assumptions:

<table>
<thead>
<tr>
<th>Valuation Date</th>
<th>August 31, 2019 rolled forward to August 31, 2020</th>
<th>August 31, 2018 rolled forward to August 31, 2019</th>
</tr>
</thead>
<tbody>

<td></td>
<td></td>
</tr>
<tr>
<td>Discount rate</td>
<td>7.250%</td>
<td>7.250%</td>
</tr>
<tr>
<td>Long-term expected investment rate of return</td>
<td>7.25%</td>
<td>7.25%</td>
</tr>
<tr>
<td>Municipal bond rate</td>
<td>2.33%</td>
<td>2.63%</td>
</tr>
<tr>
<td>Salary increases</td>
<td>3.05% to 9.05% (includes inflation of 2.3%)</td>
<td>3.05% to 9.05% (includes inflation of 2.3%)</td>
</tr>
<tr>
<td>Benefit changes during the year</td>
<td>None</td>
<td>None</td>
</tr>
<tr>
<td>Ad hoc post-employment benefit changes</td>
<td>None</td>
<td>None</td>
</tr>
</tbody>
</table>

The actuarial methods and assumptions used in the determination of the total pension liability as of August 31, 2020 and 2019 are the same, except for the municipal bond rate. For a full description of these assumptions please see the actuarial valuation report dated November 14, 2019.

Discount Rate. A single discount rate of 7.25% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.25%. The projection of cash flows used to determine the single discount rate assumed that contributions from active members, employers, and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50% of payroll in fiscal year 2020 gradually increasing to 9.55% of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.
(8) Employees’ Retirement Plan (continued)

Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2020 are summarized below:

<table>

</tbody>
</table>

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2021 and 2020, the District reported a liability of $7,554,050 and $7,513,872, respectively, for its proportionate share of the TRS net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District at August 31, 2021 and 2020 as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District is as follows:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>District's proportionate share of the net pension liability</td>
<td>$7,554,050</td>
<td>7,513,872</td>
</tr>
<tr>
<td>State's proportionate share of the net pension liability associated with the District</td>
<td>5,870,861</td>
<td>5,553,473</td>
</tr>
<tr>
<td>Total</td>
<td>$13,424,911</td>
<td>13,067,345</td>
</tr>
</tbody>
</table>

The 2021 net pension liability was measured as of August 31, 2019 and rolled forward to August 31, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportion of the
(8) Employees’ Retirement Plan (continued)

net pension liability was based on the District’s contributions to the pension plan relative to
the contributions of all employers to the plan for the period September 1, 2019 through
August 31, 2020. The District’s proportion of the collective net pension liability was
0.014% which was consistent with its proportion measured as of August 31, 2019.

The 2020 net pension liability was measured as of August 31, 2018 and rolled forward to
August 31, 2019 and the total pension liability used to calculate the net pension liability
was determined by an actuarial valuation as of that date. The District’s proportion of the
net pension liability was based on the District’s contributions to the pension plan relative to
the contributions of all participating employers to the plan for the period September 1,
2018 to August 31, 2019. The District’s proportion of the collective net pension liability
was 0.014% which was a decrease of 0.0004% from its proportion measured as of August
31, 2018.

There were no changes in assumptions since the prior measurement date.

For the years ended August 31, 2020 and 2019, the District recognized total pension
expense of $946,176 and $1,530,999, respectively. Of the total pension expense, for the
measurement periods ended August 30, 2020 and 2019, the District recognized pension
expense of $706,134 and $872,372, respectively, and revenue of $452,282 and $373,910,
respectively, for support provided by the State.

At August 31, 2021 and 2020, the District reported its proportionate share of the TRS’s
deferred outflows of resources and deferred inflows of resources related to pensions from the
following sources:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>

<td>(8,924)</td>
</tr>
</tbody>
</table>

**Optional Retirement Program.** The state has also established an optional retirement program for institutions of higher education. Participation in the optional retirement program (ORP) is in lieu of participation in TRS. ORP provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

**Funding Policy.** Contribution requirements are not actuarially determined but are established and amended by the Texas legislature. The percentages of participant salaries currently contributed by the state and each participant are 3.3% and 6.6%, respectively.
(8) Employees’ Retirement Plan (continued)

The District supplements an additional 1.3% for participants that are grandfathered in under the supplement. Benefits fully vest after one year plus one day of employment. Because these are individual annuity contracts, the state has no additional or unfunded liability for this program. SB 1812, 83rd Texas Legislature, Regular Session, effective September 1, 2013, limits the amount of the state’s contribution to 50% of eligible employees in the reporting district.

Contribution rates as a percentage of compensation and contributions made for ORP for 2020 and 2021 are shown in the table below.

<table>
<thead>
<tr>
<th>Year</th>

</tr>
</tbody>
</table>

The total payroll for all College employees was $20,383,880 and $20,545,524 for the years ended August 31, 2021 and 2020, respectively. The total payroll of employees covered by ORP was $3,780,634 and $4,147,124 for the years ended August 31, 2021 and 2020, respectively.

(9) Compensated Absences

Full-time employees are granted 8 hours of paid sick leave time per scheduled work month. Paid sick leave time that has not been taken accumulates up to a maximum of 720 hours, but it is not paid should the employment relationship cease for reasons other than retirement. Full-time employees are also granted 80 hours per year of vacation time: a total of 40 hours’ vacation time may be accumulated and carried forward to the following fiscal year. Unused vacation time that is paid at the time employment ceases, regardless of the reason for termination.

Upon official retirement, an eligible employee is paid the greater of one month’s salary or one-half of his or her accumulated sick leave time, whichever is greater. Accordingly, the District has included a liability for accrued sick leave time in the amount of $334,132 and $473,671 at August 31, 2021 and 2020, respectively, based on employees currently eligible for retirement. 10% of the total liability for accrued sick leave is considered a current liability based on historical experience. The District accrued vacation liability in the amount of $271,582 and $251,820 at August 31, 2021 and 2020, respectively, all of which has been classified as a current liability.

Notes to Financial Statements
(Continued)

(10) Operating Lease Commitments

The District leases space under an operating lease through 2025. Included in operating expenses for each of the years ended August 31, 2021 and 2020 is $125,448 of rent paid or due under this operating lease. Minimum future rental payments under this noncancelable operating lease having remaining terms in excess of one year as of August 31, 2021 are as follows: $125,448 for each of the fiscal years 2022 through 2025; and $41,816 for fiscal year 2026.

In addition, the District leases space annually with independent school districts. The District’s rental payments each year are the tuition provided by the District for dual or concurrent credit to the students at the school districts. Included in operating expenses for the years ended August 31, 2021 and 2020 is $252,790 and $147,675, respectively, of rent bartered under these leases.

(11) Other Post-Employment Benefits (OPEB)

Plan Description. The District participates in a cost-sharing, multiple-employer defined-benefit OPEB plan with a special funding situation. The Texas Employees Group Benefits Program (GBP) is administered by the Employees Retirement System of Texas (ERS). The GBP provides certain postemployment health care, life and dental insurance benefits to retired employees of participating universities, community colleges, and State agencies in accordance with Chapter 1551, Texas Insurance Code. Almost all employees may become eligible for those benefits if they reach normal retirement age while working for the State and retire with at least 10 years of service to eligible entities. Surviving spouses and dependents of these retirees are also covered. Benefit and contribution provisions of the GBP are authorized by State law and may be amended by the Texas Legislature.

OPEB Plan Fiduciary Net Position. Detailed information about the GBP’s fiduciary net position is available in a separately-issued ERS Comprehensive Annual Financial Report that includes financial statements, notes to the financial statements, and required supplementary information. That report may be obtained by visiting https://www.ers.texas.gov/About-ERS/Reports-and-Studies/Reports-on-Overall-ERS-Operations-and-Financial-Management; by writing to ERS at 200 East 18th Street, Austin, Texas, 78701; or by calling (877) 275-4377.
(11) Other Post-Employment Benefits (OPEB) (continued)

Benefits Provided. Retiree health benefits offered through the GBP are available to most State of Texas retirees and their eligible dependents. Participants need at least 10 years of service credit with an agency or institution that participates in the GBP to be eligible for GBP retiree insurance. The GBP provides self-funded group health (medical and prescription drug) benefits for eligible retirees under HealthSelect. The GBP also provides a fully insured medical benefit option for Medicare-primary participants under the HealthSelect Medicare Advantage Plan and life insurance benefits to eligible retirees via a minimum premium funding arrangement. The authority under which the obligations of the plan members and employers are established and/or may be amended is Chapter 1551, Texas Insurance Code.

Contributions. Section 1551.055 of Chapter 1551, Texas Insurance Code, provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS Board of Trustees. The employer and member contribution rates are determined annually by the ERS Board of Trustees based on the recommendations of ERS staff and its consulting actuary. The contribution rates are determined based on (i) the benefit and administrative costs expected to be incurred, (ii) the funds appropriated and (iii) the funding policy established by the Texas Legislature in connection with benefits provided through the GBP. The Trustees revise benefits when necessary to match expected benefit and administrative costs with the revenue expected to be generated by the appropriated funds. There are no long-term contracts for contributions to the plan.

The following table summarizes the maximum monthly employer contribution toward eligible retirees’ health and basic life premium, which is based on a blended rate as of the measurement period. Retirees pay any premium over and above the employer contribution. The employer does not contribute toward dental or optional life insurance. Surviving spouses and their dependents do not receive any employer contribution. As the non-employer contributing entity (NECE), the State of Texas pays part of the premiums for the junior and community colleges.

</tr>
</tbody>
</table>

Many of the actuarial assumptions used in this valuation were based on the results of actuarial experience studies performed by the ERS and TRS retirement plan actuaries for the period September 1, 2010 to August 31, 2017 for higher education members.
(11) Other Post-Employment Benefits (OPEB) (continued)

Investment Policy. The SRHP is a pay-as-you-go plan and does not accumulate funds in advance of retirement. The ERS’s Board of Trustees adopted the amendment to the investment policy in August 2017 to require that all funds in the plan be invested in short-term fixed income securities and specify that the expected rate of return on these investments is 2.4%.

Discount Rate. Because the GBP does not accumulate funds in advance of retirement, the discount rate that was used to measure the total OPEB liability is the municipal bonds rate. The discount rate used to determine the total OPEB liability as of the beginning of the measurement year was 2.97%. The discount rate used to determine the total OPEB liability as of the end of the measurement year was 2.20%, which amounted to a decrease of 0.77%. The source of the municipal bond rate was the Bond Buyer Index of general obligation bonds with 20 years to maturity and mixed credit quality. The bonds’ average credit quality is roughly equivalent to Moody’s Investors Service’s Aa2 rating and Standard & Poor’s Corp.’s AA rating. Projected cash flows into the plan are equal to projected benefit payments out of the plan. Because the plan operates on a pay-as-you-go basis and is not intended to accumulate assets, there is no long-term expected rate of return on plan assets and, therefore, the years of projected benefit payments to which the long-term expected rate of return is applicable is zero years.

Discount Rate Sensitivity Analysis. The following schedule shows the impact to the District’s proportionate share of the collective net OPEB liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (2.20%) in measuring the 2020 net OPEB liability:

<table>
<thead>
<tr>

</tbody>
</table>

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. At August 31, 2021 and 2020, the District reported a liability of $27,824,181 and $28,108,603, respectively, for its proportionate share of the ERS’s net OPEB liability. This liability reflects a decrease in State support provided to the District for OPEB. The amount recognized by the District at August 31, 2021 and 2020 as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>District's proportionate share of the net OPEB liability</td>
<td>$27,824,181</td>
<td>28,108,603</td>
</tr>
<tr>
<td>State's proportionate share of the net OPEB liability associated with the District</td>
<td>25,795,331</td>
<td>27,827,761</td>
</tr>
<tr>
<td>Total</td>
<td>$53,619,512</td>
<td>55,936,364</td>
</tr>
</tbody>
</table>
(11) Other Post-Employment Benefits (OPEB) (continued)

The 2021 net OPEB liability was measured as of August 31, 2020 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District’s proportion of the net OPEB liability was based on the District’s contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2019 to August 31, 2020. At the measurement date of August 31, 2020, the District’s proportion of the collective net OPEB liability was 0.0842%, which was an increase of 0.0029% from its proportion measured as of August 31, 2019.

The 2020 net OPEB liability was measured as of August 31, 2019 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District’s proportion of the net OPEB liability was based on the District’s contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2018 to August 31, 2019. At the measurement date of August 31, 2019, the District’s proportion of the collective net OPEB liability was 0.0813%, which was a decrease of 0.0228% from its proportion measured as of August 31, 2018.

For the years ended August 31, 2021 and 2020, the District recognized total OPEB expense (benefit) of ($1,763,059) and $990,144, respectively. Of the total expense, for the measurement period ended August 31, 2020 and 2019, the District recognized OPEB expense (benefit) of ($304,352) and $31,526, respectively, and revenue of $994,839 and $31,526, respectively, for support provided by the State.

Changes Since the 2019 Actuarial Valuation: The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period.

Demographic Assumptions: Since the last valuation was prepared for this plan, demographic assumptions (including rates of retirement, disability, termination, and mortality, and assumed salary increases) for higher education members have been updated to reflect assumptions recently adopted by the ERS Trustees. In addition, the following assumptions have been updated since the previous valuation to reflect recent plan experience and expected trends:

- The percentage of current retirees and their spouses not yet eligible to participate in the HealthSelect Medicare Advantage Plan and future retirees and their spouses who will elect to participate in the plan at the earliest date at which coverage can commence.
(11) **Other Post-Employment Benefits (OPEB) (continued)**

- The percentage of future male retirees assumed to be married and electing coverage for their spouse.
- The proportion of future retirees assumed to cover dependent children have been updated to reflect recent plan experience and expected trends.

**Economic Assumptions:** Assumptions for expenses, assumed per capita health benefit costs and health benefit cost and retiree contribution and expense trends have been updated since the previous valuation to reflect recent health plan experience and its effects on our short-term expectations.

The discount rate assumption was changed from 2.97% as of August 31, 2019 to 2.20% as of August 31, 2020 as a result of requirements to utilize the yield or index rate for 20-year, tax-exempt general obligation municipal bonds rated AA/Aa (or equivalent) or higher in effect on the measurement date.

**Benefit Terms:** There are no significant changes to benefit terms.

At August 31, 2021 and 2020, the District reported its proportionate share of the ERS plan’s collective deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

<table>
<thead>
<tr>

</table>

The $992,208 reported as deferred outflows of resources related to contributions paid to ERS subsequent to the measurement date at August 31, 2020 will be recognized as a reduction of the net OPEB liability beginning in fiscal year 2022.

The net amounts of the District’s balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<table>
<thead>

</table>

(12) Related Parties

During the years ended August 31, 2021 and 2020, the District provided certain services, such as office space, utilities, and staff assistance to the Foundation at no cost to the Foundation. In September 2019, the District transferred all of its investments of approximately $9.6m to the Foundation.
(13) Ad Valorem Property Taxes

The District’s ad valorem property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real, business and personal property located in the District as follows:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>

<td></td>
</tr>
<tr>
<td>for assessed</td>
<td>0.175</td>
<td>0.175</td>
</tr>
</tbody>
</table>

Taxes levied for the years ended August 31, 2021 and 2020 were $6,890,932 and $7,084,760, respectively. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. Tax collections for the years ended August 31, 2021 and 2020 are as follows:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Current taxes collected</td>
<td>$ 6,793,750</td>

<td>114,945</td>
</tr>
<tr>
<td>Total collections</td>
<td>$ 7,140,155</td>
<td>7,065,992</td>
</tr>
</tbody>
</table>

Current tax collections for each of the years ended August 31, 2021 and 2020 were approximately 99% of the current tax levy. An allowance for uncollectible taxes is based upon the historical experience in collecting property taxes.

For the fiscal years ended August 31, 2021 and 2020, the District, did not enter into any tax abatement agreements.
(14) **Budgets**

Each community college district in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The budget, which is prepared on the accrual basis of accounting, is adopted by the District’s Board of Trustees. A copy of the approved budget and subsequent amendments must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor’s Office of Budget and Planning by December 1.

(15) **Income Taxes**

The District is exempt from income taxes under Internal Revenue Code Section 115, although unrelated business income may be subject to income taxes under Internal Revenue Code Section 511(a)(2)(B). The District had no unrelated business income tax liability for 2021 or 2020.

The Foundation is an organization generally exempt from federal income taxes under Internal Revenue Code Section 501(c)(3).

(16) **Commitments and Contingencies**

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

(17) **Contracts and Grants**

Contract and grant revenues are recognized as earned in the accompanying Statements of Revenues, Expenses, and Changes in Net Position. For contract and grant awards, funds expended but not collected are reported as accounts receivable in the accompanying Statements of Net Position. Contract and grant awards that are not yet funded, and for which the District has not yet performed services, are not included in the financial statements. Such contract and grant awards already committed total $20,431,490 and $3,109,175 at August 31, 2021 and 2020, respectively, for federal contract and grant awards; and $548,902 and $950,569 at August 31, 2021 and 2020, respectively, for state contract and grant awards.
(18) Business Concentrations and Uncertainties

The COVID-19 pandemic has continued to impact the District in 2021. Measures taken by various governments to contain the virus have affected economic activity. The District has taken a number of measures to monitor and mitigate the effects of COVID-19, such as safety and health measures for personnel and students (including social distancing and virtual learning and meetings). The impact on the District’s operations remains uncertain and cannot be estimated at this time. The District will continue to follow the various government policies and advice and will exert continued efforts to carry out the mission of the District in the best and safest manner possible without jeopardizing the health of personnel or students.

The District generally serves the East Texas region; consequently, it is impacted by the general economy of that area. Also, the District receives a substantial portion of its funding from federal and state sources; consequently, the District is dependent upon continued funding from these sources.

(19) Authoritative Pronouncements Not Yet Effective

The following pronouncements were issued by the Governmental Accounting Standards Board (GASB) which may impact the District but are not yet effective. The District has not yet determined the effects of the adoption on its financial statements.

GASB Statement No. 87, *Leases* (issued June 2017) – the objective of this statement is to increase the usefulness of governments’ financial statements by requiring reporting of certain lease liabilities that currently are not reported. It will enhance comparability of financial statements among governments by requiring lessees and lessors to report leases under a single model. The statement will also require notes to financial statements related to the timing, significance, and purpose of a government’s leasing arrangements. The requirements of this statement are effective for financial statements for fiscal years beginning after December 15, 2019; however, in May 2020, GASB issued GASB 95 and delayed implementation to fiscal years beginning after June 15, 2021.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period* (issued June 2018) – the objective of this statement is to simplify accounting for interest cost incurred before the end of a construction period. It will enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period. It also simplifies accounting for interest cost incurred before the end of a construction period. The requirements of this statement are effective for financial statements for fiscal years beginning after December 15, 2019; however, in May 2020, GASB issued GASB 95 and delayed implementation to fiscal years beginning after December 15, 2020.
Kilgore Junior College District

Notes to Financial Statements
(Continued)

(19) Authoritative Pronouncements Not Yet Effective (continued)

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements (issued May 2020)* – the objective of this statement is to provide guidance for subscription-based information technology arrangements (SBITA). It will define SBITA contracts, provide guidance on the accounting for the SBITAs, and require disclosures regarding the SBITAs. The requirements of this statement are effective for financial statements for fiscal years beginning after June 15, 2022.

(20) Subsequent Events

The District has evaluated subsequent events from the date of the statements of net position through July 15, 2022, the date on which the financial statements were available to be issued, and has determined that there are no items to disclose.

(1) Changes in Benefit Terms

Any plan changes that have been adopted and communicated to plan members by the time the valuation is prepared must be included in the valuation. Accordingly, this valuation reflects the benefit changes that will become effective January 1, 2021, since these changes were communicated to plan members in advance of the preparation of the latest valuation report.

There are no significant changes in benefit terms.

(2) Changes in Assumptions

Demographic Assumptions. Since the last valuation was prepared for this plan, demographic assumptions (including rates of retirement, disability, termination, and mortality, and assumed salary increases) for higher education members have been updated to reflect assumptions recently adopted by the ERS Trustees. In addition, the following assumptions have been updated since the previous valuation to reflect recent plan experience and expected trends:

- The percentage of current retirees and their spouses not yet eligible to participate in the HealthSelect Medicare Advantage Plan and future retirees and their spouses who will elect to participate in the plan at the earliest date at which coverage can commence.
- The percentage of future female retirees assumed to be married and electing coverage for their spouse.
- The proportion of future retirees assumed to cover dependent children have been updated to reflect recent plan experience and expected trends.

Economic Assumptions: Assumptions for expenses, assumed per capita health benefit costs and health benefit cost and retiree contribution and expense trends have been updated since the previous valuation to reflect recent health plan experience and its effects on our short-term expectations.

The discount rate was changed from 2.97% as of August 31, 2010 to 2.20% as of August 31, 2020 as a result of requirements to utilize the yield or index rate for 20-year, tax-exempt general obligation municipal bonds rated AA/Aa (or equivalent) or higher in effect on the measurement date.

(1) **Federal Revenue Reconciliation**

Federal revenues for 2021 are reported in the basic financial statements as follows:

- Federal grants and contracts per Exhibit 2 $14,432,975
- Add: Federal Direct Student Loans made $23,509,245
- Less: Amounts not subject to single audit $(286,671)

**Total per Schedule of Expenditures of Federal Awards** $37,655,549

(2) **Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal grant activity of Kilgore Junior College District (the District) under programs of the federal government for the year ended August 31, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

(3) **Summary of Significant Accounting Policies**

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance and “frequently asked questions” (FAQs) and other guidance issued by the U.S. Department of Education, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available.

(4) **Indirect Cost Rate**

The District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

Kilgore Junior College District
Notes to Schedule of Expenditures of State Awards
Year Ended August 31, 2021

(1) State Revenue Reconciliation

State revenues for 2021 are reported in the basic financial statements as follows:

- State grants and contracts per Exhibit 2 $ 1,327,215
- Total per Schedule of Expenditures of State Awards $ 1,327,215

(2) Basis of Presentation

The accompanying Schedule of Expenditures of State Awards (the Schedule) includes the state grant activity of Kilgore Junior College District (the District) under programs of the state government for the year ended August 31, 2021. The information in this Schedule is presented in accordance with the requirements of the State of Texas Single Audit Circular contained in the state’s Uniform Grant Management Standards. Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

(3) Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the state’s Uniform Grant Management Standards, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
Overall Compliance, Internal Control and Federal and State Awards Section
INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Trustees
Kilgore Junior College District:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the business-type activities and the discretely presented component unit of Kilgore Junior College District (the District) as of and for the year ended August 31, 2021, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements, and have issued our report thereon dated July 15, 2022. The financial statements of The Kilgore College Foundation, a discretely presented component unit of the District, were not audited in accordance with Government Auditing Standards and accordingly this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with The Kilgore College Foundation.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify a certain deficiency in internal control that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questions costs as item 2021-001 to be a material weakness.
A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, including the Public Funds Investment Act (Chapter 2256, Texas Government Code), noncompliance with which could have a direct and material effect on the financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards or the Public Funds Investment Act.

District’s Response to Findings

The District’s response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District’s response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

July 15, 2022
INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH
MAJOR FEDERAL AND STATE PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE AND
UNIFORM GRANT MANAGEMENT STANDARDS

The Board of Trustees
Kilgore Junior College District:

Report on Compliance for Each Major Federal and State Program

We have audited Kilgore Junior College District’s (the District) compliance with the types of
compliance requirements described in the OMB Compliance Supplement and the Uniform Grant
Management Standards that could have a direct and material effect on each of the District’s
major federal and state programs for the year ended August 31, 2021. The District’s major
federal and state programs are identified in the summary of auditor’s results section of the
accompanying schedule of findings and questioned costs.

Management’s Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the
terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditor’s Responsibility

Our responsibility is to express an opinion on compliance for each of the District’s major federal
and state programs based on our audit of the types of compliance requirements referred to above.
We conducted our audit of compliance in accordance with auditing standards generally accepted
in the United States of America; the standards applicable to financial audits contained in
Government Auditing Standards, issued by the Comptroller General of the United States; the
audit requirements of Title 2, U.S. Code of Federal Regulations (CFR) Part 200, Uniform
Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards
(Uniform Guidance); and the Uniform Grant Management Standards. Those standards and the
Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance
about whether noncompliance with the types of compliance requirements referred to above that
could have a direct and material effect on a major federal or state program occurred. An audit
includes examining, on a test basis, evidence about the District’s compliance with those
requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each
major federal and state program. However, our audit does not provide a legal determination on
the District’s compliance.
Basis for Qualified Opinion on Texas Education Opportunity Grant (State Program)

As described in the accompanying schedule of findings and questioned costs, the District did not comply with requirements regarding Texas Education Opportunity Grant as described as finding number 2021-002 for matching and eligibility. Compliance with such requirements is necessary, in our opinion, to comply with the requirements applicable to that program.

Qualified Opinion on Texas Education Opportunity Grant (State Program)

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the District complied, in all material respects, with the type of compliance requirements referred to above that could have a direct and material effect on Texas Education Opportunity Grant for the year ended August 31, 2021.

Unmodified Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2021.

District’s Response to Findings

The District’s response to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District’s response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District’s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with Uniform Guidance and Uniform Grant Management Standards, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be a material weakness and a significant deficiency.
A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2021-002 to be a material weakness.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

The District’s response to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District’s response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Uniform Grant Management Standards. Accordingly, this report is not suitable for any other purpose.

(1) Summary of Auditor's Results

**Financial Statements**

Type of auditor's report issued: unmodified

Internal control over financial reporting:
- Material weakness(es) identified? x yes no
- Significant deficiency(ies) identified that are not considered to be material weaknesses? yes x none reported
- Noncompliance material to financial statements noted? yes x no

**Federal and State Awards**

Internal control over major programs:
- Material weakness(es) identified? x yes no
- Significant deficiency(ies) identified that are not considered to be material weaknesses? yes x none reported

Type of auditor's report issued on compliance for major programs: unmodified (federal) and qualified (state)

Any audit findings disclosed that are required to be reported in accordance with 2 CFR section 200.516(a) of the Uniform Guidance and the Uniform Grant Management Standards? x yes no

Identification of major federal programs:

<table>

Dollar threshold used to distinguish between type A and type B federal programs: $750,000

Dollar threshold used to distinguish between type A and type B state programs: $300,000

Auditee qualified as low-risk auditee for federal programs? yes x no

Auditee qualified as low-risk auditee for state programs? yes x no
(2) Financial Statement Findings

Finding 2021-001 – Controls over Annual Financial Reporting

As noted in prior audits and consistent with the 2021 fiscal year-end audit, the financial statements and related note disclosures of the District have been completed by the independent accounting firm at the District’s request. However, we cannot be considered a part of the District’s internal controls. Consequently, the inability of the District to prepare its own financial statements and related note disclosures is considered a control deficiency. The fact that we prepare the financial statements may give users more confidence that the financial statements are correct; however, it does not eliminate the control deficiency. Management has made a conscious decision, due to costs or other considerations, to accept the degree of risk posed by this control deficiency over financial reporting.

Views of Responsible Officials

We agree with the comment on internal control. Due to key staff turnover of the CFO, the controller, and accountants, sufficient time was not available to remediate the existing deficiency noted in financial reporting in the prior year audit report. The business office is documenting existing processes and developing procedure manuals and checklists. The business office will continue to develop and implement a sustainable internal controls management program to ensure controls are adequately designed, implemented, executed, and monitored on an ongoing basis to achieve the goal of timely closing of the general ledger, timely preparation of account reconciliations, identification and proper analysis of transactions, and proper accounting and timely reporting of financial transactions. The business office is revising the chart of accounts after the fiscal year 2022 audit with the goal to start using the new chart of accounts at the start of fiscal year 2024 aiding in financial reporting and budget monitoring.

(3) Federal Award Findings and Questioned Costs

None noted
(4) State Award Findings and Questioned Costs

2021-002 – Questioned Costs in the Texas Education Opportunity Grant

State Program: Texas Education Opportunity Grant

State Agency: Texas Higher Education Coordinating Board

Criteria:

The Texas Administrative Code Title 19 Part 1, Chapter 22, Subchapter M, Rule 22.260 (b) (4) states that an institution may not charge a student receiving a Texas Education Opportunity Grant (TEOG) award an amount of tuition and required fees in excess of the amount of the TEOG award. For excess amounts, the institution must use other available sources of financial aid, other than a loan or Pell grant, to cover the difference, or the institution can waive the excess charges for the student.

The Texas Administrative Code Title 19 Part 1, Chapter 22, Subchapter M, Rule 22.256 contains the eligibility requirements for students to receive initial or continuation awards under the TEOG program.

Condition and Context:

During the audit of TEOG, we identified the District did not properly calculate matching amounts for tuition and fees in excess of TEOG funds disbursed to students. In addition, we identified instances in which the District awarded eligibility to students and these students incorrectly received either initial or continuation awards.

Cause and Effect:

The District was not aware of the matching requirement. The District identified all students with tuition and fees that exceeded amounts of TEOG funds awarded. The District reduced any excess by funds received from other sources (excluding Pell grants and loan funds) to determine if there was remaining excess that should have been waived or reduced by other funding sources.

The District was not fully aware of the eligibility requirements of the program. The District identified all students that incorrectly received an initial or continuation award to determine properly handling of funding of this aid at the District and student level.

As a result of these findings, it was also evident that there were control deficiencies which kept these costs from being identified before being submitted to the Texas Higher Education Coordinating Board. These control findings are determined to be a material weakness.
Questioned Costs:

The unmatched funds were calculated to be approximately $156,000 of questioned costs. Additionally, approximately $8,000 of TEOG funds had to be replaced due to ineligibility. A total of $164,000 in questioned costs were identified by the District which related to matching and eligibility. These costs exceed the required reporting threshold and are considered material noncompliance.

Repeat Finding:

No.

Recommendation:

To remediate these deficiencies, we recommend that management implement training to ensure that all personnel involved with TEOG understand the terms of the grant, requirements for matching calculations and requirements for eligibility of initial and continuation awards. Future awards should be properly reviewed for compliance with the grant requirements.

Views of Responsible Officials and Planned Corrective Actions:

Due to an incorrect interpretation of TEOG requirements from the previous Financial Aid Director, the District did not properly determine eligibility and failed to make the required institutional match. The District has developed and implemented processes that include validating eligibility versus established criteria. This initial identification is reviewed again to verify eligibility and award amount. The District’s financial aid office will calculate the required match for the awards and notify the business office for release of institutional funds. The District’s financial aid office has trained staff on the new processes and has educated the team on the correct eligibility criteria and award calculation.

Anticipated Completion Date: July 31, 2022
Repeat Finding 2020-001 – Financial Accounting and Reporting

As noted in prior audits, the financial statements and related note disclosures of the District have been completed by the independent accounting firm at the District’s request. However, we cannot be considered a part of the District’s internal controls. Consequently, the inability of the District to prepare its own financial statements and related note disclosures is considered a control deficiency.

The fact that we prepare the financial statements may give users more confidence that the financial statements are correct; however, it does not eliminate the control deficiency. Management has made a conscious decision, due to costs or other considerations, to accept the degree of risk posed by this control deficiency over financial reporting.

Views of Responsible Officials

Due to key staff turnover (CFO) and the disruption caused by the COVID-19 global pandemic and resulting remote working environment, etc., sufficient time was not available to remediate the existing deficiency noted in financial reporting in the prior year audit report. The business office will continue to develop and implement a sustainable internal controls management program to ensure controls are adequately designed, implemented, executed, and monitored on an ongoing basis to achieve the goal of timely closing of the general ledger, timely preparation of account reconciliations, identification and proper analysis of transactions, and proper accounting and timely reporting of financial transactions. See current year finding 2021-001.

2020-002 – Grant Accounting and Reporting

The District was unable to provide accurate schedules of expenditures of federal and state awards prior to the onset of the audit and such schedules were required to be prepared and completed by the District’s auditor.

Corrective action was taken.
