Non-Academic Courses

Community Education & Workforce Development courses are open to anyone without formal admission to Kilgore College. Generally, there are no entrance requirements. Some programs may require proof of a bacterial meningitis vaccination. Course descriptions include prerequisites when appropriate.

Books & Materials:

Instructors will discuss materials and textbooks during the first class session. Books are available through the college bookstore located in the Devall Student Center or at KC-Longview for Longview classes only. Some courses listed in the class schedule do not require textbooks or supplies. Supplies and texts are not included in the course fees unless stated in the course description. Books or supplies should not be purchased until you know exactly what the instructor will require.

Continuing Education Units (CEUs):

In compliance with guidelines from the Southern Association of Colleges and Schools, Kilgore College awards Continuing Education Units (CEUs) to students successfully completing various non-credit courses sponsored by the college. Kilgore College Community Education courses enhance employment skills and offer opportunities for personal enrichment. Short-term, non-credit courses help individuals learn and improve skills for both work and leisure. Professional skills courses offer curriculum for licensure and certification exam preparation for improving job efficiency, career advancement or retraining for new careers.
