Diagnostic Cardiovascular Technology Adult Echocardiography

This Certificate is a fast-track adult echocardiography program designed for working sonographers credentialed from ARDMS. This two-semester program will have didactic one evening a week and lab. The clinical requirements of 288 hours are met with the sonographers current employment (self-pace). Participants will learn to perform echocardiograms, a widely used diagnostic test for heart disease. Echocardiography technologists perform these ultrasound in hospitals and outpatient facilities. Completing this certificate, the sonographer will be eligible for the Registered Diagnostic Cardiac Sonographer RDMS (ARDMS) exam with a completed Certification Verification form (CV) from a credential sonographer. Textbook and exam fees are included in tuition. *Note: this is the sonographers responsibility to complete the CV.*
